Subject: RE: CSTAG RAO follow up meeting

For clarification, DEP would like to hold the 31st for the meeting (at a minimum). I will be reaching out to John Wolfe today to see on his availability for early June and his ability to participate in preparatory conference calls with DEP/EPA/EPA technical consultants.

Basically, the DEP needs to discuss internally first (hopefully next week- week of 21st); then discuss with EPA/Technical team via conference call (Week of the 28th- not Monday- perhaps May 29th or June 1st); and finalize RAOs with EPA in early June. If we can expediate this, the 31st may ultimately work. I will be reaching out to John to determine availability.

My head hurts!

Just so I understand, you would like to have a conference call the week of May 28th with the technical team, without John Wolfe, and then have another face to face in early June? I understand you are meeting internally next week as well.

Since we are having a conference call the week of May 28th, perhaps John can get away for an hour or so from his conference?

Shall we set up the conference call for May 31 afternoon since we all seem to be available? Michael is only available May 30 am or May 31 pm during the week of May 28th.

Diane, I know my email stated that May 31st appears to be the best date; however, the DEP would like John Wolfe to participate in this RAO meeting and he is not available for the 31st. If possible, please hold the 31st day as a last resort. (available time for preparatory work is limited).

I will be reaching out to John Wolfe today to see on his availability for early June and his ability to participate in preparatory conference calls with DEP/EPA/EPA technical consultants. DEP needs to discuss internally first (next week); then discuss with EPA/Technical team via conference call (Week of the 28th- not Monday); and finalize RAOs with EPA in early June. Again, I will be reaching out to John to determine availability.

Based on 14th meeting, we have a list of questions that the DEP would like to provide to the EPA. Anne and I are writing them now and hope to provide to you soon.

May 31st afternoon sounds good. That is up to you if you want to meet in person or on a call.

Tuesday at 10 would work for a call. Would that just be myself and Michael?

Diane

Diane, couple of items. Appears that May 31st afternoon is the best time to discuss RAOs. Would this be in Edison/conference call?

Also, before the May 31st meeting, DEP would like to have a conference call with the EPA. Based on 14th meeting, we have a list of questions to provide to the EPA. Anne and I are writing them now and hope to provide to you soon (at the end of this week) for said conference call. DEP would like to schedule the conference call for next week (appears Monday and Tuesday is best for the DEP). If not, please provide alternative dates. Thanks Jay
